## \*\*\*\*\* INTRODUCTION \*\*\*\*\*

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

**Chapter 1:**  
**General characteristics of the year. The external conditions.**

*Solar Return Ascendant Capricorn :*

During this year you will be more focused on your ambitions and goals. You will give more consideration to your financial situation. You will also be inclined to look seriously at the work you do. If you are not completely satisfied with it, you will start looking around for something you like better - one that gives you more responsibility and rewards for your efforts. This could be the year you get a promotion as your superior will see you as a more conscientious and productive employee. Thanks to your conscientious and continuous effort you can achieve everything that you set out to do, but don't expect it all to come easy. Saturn ruling this year forces you more than ever to face reality and your own limitations. If by nature you are not very practical or ambitious, you will have to try harder to make that impression on those in authority and to convince them that you do indeed deserve the respect you are seeking. On the other hand, if you are already hard-working and fairly ambitious, this could be your year to jump up the ladder. In either case, you will have the opportunity to change your life in some significant way.

Maturing is the key for this year. You will feel your needs changing, and in spite of an inner resistance, a part of you wants to take on new responsibilities and forge ahead. You probably won't see the entire picture all at once, but it is probable that whatever you undertake now will bring you satisfaction for a long time to come. Now is the time to make the effort and to even sacrifice in order to realize your most important goals. You will probably not get a lot of help from others unless you are willing to do the work.

Others will notice the dedication you are making. They will recognize that you are serious and respond to you in like fashion.

This influence could bring some problems with your bones and joints. It would be a good time to have your teeth checked and also to pay more attention to the care of your skin, fingernails and hair. Be sure to eat foods that are rich in minerals. There is also a possibility that your new-found ambition could cause you to over-work and become run down, which could result in depression or frustration.

During this period you could be so busy and absorbed with your ambitions that you tend to overlook your emotions. You may become more aloof and not have as much time for socializing. As a consequence, your friends and acquaintances may back away from you, not understanding your new attitude. It is important to allow adequate time for others and not get completely caught up in yourself and your projects. When this year is over, you would not want to find yourself alone. You might attract Cancer-type persons who could be most beneficial to you now as they may offer you understanding, protection, and support in your endeavors. This year does not leave much time for romance, love and adventure. You will be looking for people who can be your friend and understand the efforts you are making to improve your position in life and earn more money.

*Solar Return MC Scorpio:*

This year will bring a transformation of your objectives and goals. You will probably have several professional interests and you will be making plans for your future. This desire for change could be both conscious as well as subconscious. In general, this influence doesn't bring easy changes. On the contrary, there will be certain obstacles that will test your own strength of will and courage. But at the same time, you could

receive favors and support from friends and associates, or the public in general.

If your usual work is related to medicine, chemistry, investigation, sciences in general, or to metaphysics, you will have a favorable year expanding your knowledge and your ability. In any event, you will encounter some different, strange and mysterious supernatural events. It is probable that your interest in these subjects will increase, and you could come in contact with people who share the same interests.

During this year, you could be intensely concerned about your inner or spiritual growth. It could be a critical time when you will explore things you had never been interested in before. Subjects like dying, near-death experiences, life after life, past lives and other similar subjects will attract your attention.

Your home will be more sound and stable now, and it will become your place of refuge and rest. If you live with other people, the only problem that you would have is that you won't find all the understanding that you need during this period. The people around you could be more conservative and traditional in their beliefs and interests. Don't expect them to always understand the changes that are taking place within you, because it is your internal and personal process.

In general, this time could be somewhat more active than normally. Try not to act too impulsively as you pursue your new interests and take care not force your ideas on others who might not be interested. This way you will have a calmer and more positive year.

## **Chapter 2: Astrological influence of your personality.**

### *Sun in 12th house:*

During this solar influence you will be more quiet and withdrawn. You will look for intimate encounters and retreat from hectic social schedules. If your attitude and your inner thoughts are harmonious, you can use periods of solitude to recharge your energies and to clear any doubts you have about yourself. But if you concentrate only on negativity and you retreat only because you feel depressed or broken-hearted, you will find that your problems grow larger and seem impossible to resolve.

This influence forces you to confront the debts of your past, or your karmic debts, showing you the errors you have made that still need to be resolved. The positive and creative way to do this is to maintain a positive mental attitude in spite of all your adversaries, give yourself credit for the things that you have accomplished, accept responsibility for your own actions, and get involved in some activity that serves others.

This influence could bring some loss or complications in business matters. Also, some friendships you counted on could come to an end, and the help that others get may not come your way. You are definitely being guided to become mature and to confront any issues or truths that you have denied, or wanted to avoid, heretofore.

There also is a possibility of getting involved in some type of secret or clandestine business or an activity that involves a degree of risk and even proves to be an unlawful act. Maintain your integrity and your common sense. What comes easy today could be your downfall tomorrow.

It is also important to take care of your health. Don't hesitate to see a specialist if you have a serious problem. You may be hospitalized or restricted in some way in your daily activity. If you enjoy good health, make sure that you get proper rest and nourishment to avoid physical complications.

You will be more sensitive than usual, which could cause you to magnify your problems, making them worse than they really are, especially if you don't have a strong, spiritual foundation that helps you see your difficulties merely as tests that strengthen you in your personal evolution. Meditation and going within will help you renew your faith and intuition.

### *Sun conjunction Venus:*

You will be very sensitive and sociable during this period. Your circle of friends will increase, and you will be much more concerned with enjoying pleasant activities in your daily life. You also will be more concerned with making personal improvements, especially in your looks. You may find yourself getting more interested than normal in acquiring luxuries and bringing comfort into your life, so be careful about overspending. It also increases your personal magnetism, causing others to take special interest in you. You will have opportunities for romantic relationships. One person (or several!) may court you intensely. You will receive innumerable invitations, and the choice of accepting will be yours. This will not be a year of solitude. If you already have someone in your life, your relationship will be harmonious and you will share many pleasant moments. This will be a pleasant year and you will have a good time in spite of any problems that you may have. You will be more agreeable, happy, and creative. If you have artistic inclinations, you will produce a lot during this year. Your need to express yourself will be very strong. This influence will manifest with intensity in the area influenced by the Sun during this year (outlined in the previous paragraph).

*Sun conjunction Pluto:*

This astrological aspect will bring profound changes in your life. Hidden, repressed feelings and desires will come to the surface, causing a change in your personality. It is important that you accept these emotions and don't attempt to repress them again, because, if you do, you will only feel more anxious and tense. You will be more aggressive and impatient than at other times, and you will be working more from the subconscious level. This will be a year of transformation and profound changes for you and could bring you a wide range of new experiences.

Under this influence, you will also be inclined to worry about repairing and fixing the things that don't work in your life, both at home and at work. You also may be concerned with replacing or repairing those things that don't give good service anymore or things that have already served their useful purpose, for example, your car, home furnishings, or clothing.

You may experience tensions with people who attempt to control you or exercise authority in your life. You will be confronted with people of very strong character who think they know what is best for you but are not taking into consideration your needs or interests. Be careful not to react too aggressively in return.

The negative side of this influence is that it could bring unsavory elements or risky, violent situations into your life. It would be wise to avoid parts of your city where robberies and violence are common.

*Sun conjunction Asc:*

You will have a lot of energy during this period and you should be quite healthy. If you do have a health problem, you will recover quite quickly. It is important to get a lot of fresh air and sunshine.

You will be confident, grounded, and able to impress others with your authority at this time. People will respond to you favorably and you will be able to achieve your goals easily. You will express yourself with much frankness, and will expect the same from others. You will be very active and won't wait for others to act first. Your goal will be to express your true self. Unless there are very adverse aspects elsewhere in the chart this year, you will have a successful and satisfying year. However, if there are adverse influences, you will be determined to overcome them, because at this time you will feel very sure of yourself. You will stand up for your natural right to be a leader.

This influence is very positive, and it doesn't matter what your activity or your current situation is. You will progress and fulfill your goals to the end of this cycle. This success will mainly be due to the fact that you will allow no one to control your life or stand in your way.

*Sun square Uranus:*

You will feel dissatisfied with your daily routine and will attempt to change it in some way. Your behavior probably will be more abrupt and less patient than at other times. Your reactions will be unexpected and more violent. Watch your nervous system, since there is a strong tendency to suffer stress during this time. You will want to cut off many of your social or work connections if you feel that they limit your freedom in some way, or they are not in accordance with your new needs. Your relationships could also be affected and could suffer as a consequence of your need to make changes.

It is important during this time that you are permitted to pursue new experiences, sever relations with those

who are prejudiced, or break traditions that were limiting your freedom. Your rebellious nature will show itself, and it is better to leave you a clear path. Most of the events and problems will appear suddenly, and it is advisable that you respond in a constructive way. Take care to moderate your reactions to events so that you won't lose control over your actions.

It is also important that you remain flexible to change and not waste your energies during this year. There is a strong tendency to be too nervous and impatient, thereby attracting to you violence and accidents. Be careful with speed and with electricity.

*Sun sextile Mars:*

You will be full of enthusiasm and vitality. Your high energy level will make it possible for you to set and attain many of your goals during this year. You will trust and believe in yourself, feel good about yourself and deal constructively with any situation you encounter. Your positive attitude will enable you to use your physical energy appropriately. You shouldn't have to deal with many physical problems this year. Anything that does trouble you will be dealt with easily and quickly.

This astrological influence emphasizes your leadership ability. It is likely that you will take on a new position at work, one that lets you work more independently. You will easily be able to communicate and convey your ideas to others. Your enthusiasm for your work will be contagious.

In addition, you will show a protective attitude toward your loved ones. You will be very open and sincere with your friends and will be willing to lend a helping hand to those who need it. You will also feel quite adventurous, wanting to travel and explore new and fascinating places.

In conclusion, this will be a very active year and one of big accomplishments.

*Sun sextile Jupiter:*

This will be a very favorable and happy year. You will be experiencing some very positive energy that will enable you to resolve your problems very easily. As a matter of fact, because of your enthusiasm and optimistic outlook, this could be a very lucky year. You will be very willing to work hard and eager to take action with a smile on your face. The area of your life where you will experience a period of general expansion and growth is to be found in the house that is occupied by the Sun this year (described in the previous paragraph) and in the house occupied by Jupiter (described later on). Your social life will increase and bring you in contact with more influential and powerful people.

If you are involved in some type of litigation or legal process, it will be settled in your favor. Your sense of justice will increase along with the desire to acquire more knowledge. You will seek out new experiences and will have a strong desire to travel this year.

This will be a year to harvest all that was cultivated in previous years.

## **Chapter 3: The emotional world.**

### *Solar Return Moon in Scorpio :*

Your emotions will be very intense and profound during this year. You will live each moment with great emotion and your reaction to events will be strong. If by nature you are a calm person, you will feel more anxious and uneasy during this time. If you are inclined to be restless, it will be necessary to look for creative outlets for the extra energy that you will feel.

You will express your affection more strongly than usual. This influence also could increase your impatience with what you see as the stupidity of others. You will also find yourself being more possessive with those close to you. If you are in a committed relationship, you will try to dominate him/her and will want to be with him/her all the time! Try to control yourself and keep your jealousy in check. Your partner could feel like he/she were being suffocated by your demands to be with this person all the time. It is important for you to know how to control your impulses so that you don't create arguments with your partner.

The relationship with your mother, or with other women who have certain power in your life, could be very difficult during this year. There could be frequent disagreements and a tendency to want to impose your ideas on each other. You won't let anybody intimidate you and will respond aggressively to everyone who limits your freedom. If you were attacked or invaded, your reactions could be rather violent.

You could be inclined to take more risks in your work and to respond with great energy and intensity. Your investigating spirit will surface and you could become interested in delving into the secrets of others or into life in general. Your intuitive gifts will be more pronounced and you could have psychic or paranormal experiences.

This influence could increase fertility in women, although it also could indicate female disorders. In either case it would be advisable to pay special attention to the reproductive area and use moderation in sexual activity.

### *Solar Return Moon in 9th house:*

This year favors the possibility of a long journey to a foreign country, probably with your family or with someone you know intimately. You will feel the desire to visit places of a different culture and to increase your knowledge of the world in general. The decision to travel will be more emotional than logical.

On the other hand, your consciousness and your emotional depth will be expanded. You will need and search for new experiences in scientific as well as philosophical or metaphysical fields. Your general attitude will be more open and liberal. You could also become more interested in pursuing a search for religious or spiritual truths. The practice of meditation or prayer will be very favorable during this time, and you could experience moments of inspiration and illumination.

### *Moon conjunction MC:*

Your profession will bring you more in contact with the public during this year. You will become more understanding and sympathetic toward others, and this will make you more popular. If your work involves contact with groups of people, you will take over the leadership.

You probably will want to make some changes in your work routine. These changes will be based more on

your emotions than on logical needs. It is advisable to consider it very well before making fundamental changes.

*Moon trine Neptune:*

You will find your imagination becoming stronger during this time. If your profession involves artistic or creative activity, you will have a year of success and profit. Your sensitivity and your degree of perception will also increase. You will become more intuitive and may have premonitions about the future which will turn out to be right. You should follow the dictates of your inner voice.

You will show an agreeable and caring attitude toward others. It will be relatively easy for you to put yourself in the place of another person and understand their problems, which will result in your becoming more cooperative and sensitive to others. The sensitivity will also extend to your home environment, where you will find that your spiritual ties will strengthen, especially with your mother or other women who are close to you. You will feel the desire to help others, especially those who are more unfortunate than you, and you will be more selfless during this year.

On the other hand, you could be more receptive and more easily influenced than at other times in your life, and it will be important that you surround yourself with positive people. Your emotions will be more intense, and you will be more spiritually oriented. You will search for a closer contact with your divine inner self. You will find that you can benefit greatly through the practice of prayer or meditation.

Your imagination and your pleasures will be more refined. You will feel more romantic and loving, which will lead to relationships which will be based on your ideals and dreams. You will seek out more evolved, spiritual people to relate to during this time and will find more inner peace. You will also be drawn to spend some time near water.

During this time you can't expect too much approval or understanding from people in your surroundings. There might even be sudden and unanticipated separations from friends or neighbors.

On the other hand, you could react very impatiently toward new abstract ideas that you are presented with. During this year, you will refuse to consider any new idea that can't be proven in a logical, rational way. However, if you have a firm faith in some religion or spiritual belief, you could very well become more fanatic in defending your ideas. There is a possibility of having problems or accidents while traveling abroad.

## **HOUSE 10: Your profession, success, and status.**

*Solar Return MC in or within 3 degrees of natal 9th house:*

Your professional demands could require you to undertake some type of higher study. Or you may have the need for some long-distance travel in relation to the achievement of your professional goals and advancement. You probably will develop a wider and more aware picture of your own situation, and will search for philosophical meaning in your daily activity. During this year, you may have to complete an important mission of some kind which has spiritual or educational qualities. You could receive a position of honor granted by the courts, the church, or some intellectual institution.

*Mars in 10th house of Solar Return:*

You will become much more ambitious and combatant than at other times in your life. It will be necessary to know how to direct your energies in order to reach your goals, because there is a tendency to be too impatient, to act too aggressively and to abandon your goals before you complete them. If you are working independently, you will have a very beneficial year because you will conquer any obstacles in your path. But if you are working with others, conflicts and arguments can arise because of your dominant temperament. You will require more freedom and independence at this time and could suffer from the limitations placed upon you in the work place. This will be a year of conflict with authority figures. If you don't work for and reach a peaceful agreement with your superiors you are likely to lose your employment.

This influence inclines you to take chances and risks. Your trust in yourself will increase and your ability to do work will seem inexhaustible. You will undertake new enterprises and follow your own initiatives, but you should take care to act with moderation and perseverance.

*Solar Return Mars Conjunct natal Saturn:*
