***** INTRODUCTION *****

The Solar Return is a chart calculated for the time that the Sun arrives at the exact position of the Sun in your natal chart. That happens once every year around your birthday, but at a different time each year. This chart is calculated for the time of the Sun's return this year and marks the principal events for the year from birthday to birthday. This report also gives the location of your Solar Return. From this, it can be determined that some places are more favorable than others. With the aid of more than one report you could analyze the changes that are produced in the Solar Return Reports, choosing from different locations where you would want to spend the day.

This report essentially is divided into two parts. The first part analyzes the general external conditions of the year: opportunities and problems that could occur in different areas. For the benefit of students of astrology, the influence of the Ascendant and Midheaven of the return are described as well as that of the Sun and Moon.

The second part analyzes the twelve astrological houses, marking specifically in what area of your life the various astral influences will be manifested, emphasizing your probable responses and inner changes. This section analyzes the position of the solar houses on the natal houses, the planetary conjunctions, and the location of the planets in the houses. You will be given a description of the most important matters derived from the placement of the planets in the houses, which are outlined in the text for each of them.

In some cases you will find contradictions. A planet may be beneficial in a certain area, while others may indicate the opposite situation. This means that you could have two types of possible situations during the year. For example: a lover's quarrel and a following reconciliation. To get the most out of this report, it will be necessary to use your own logic and intuition, fitting the descriptions outlined here to your own particular case.

The objective of this report is to offer you a practical guide that helps you to analyze this year's prospects and to learn from them using your free will.

***** FIRST PART *****

**Chapter 1:
General characteristics of the year. The external conditions.**

Solar Return Ascendant Taurus :

Material matters will be very important to you this year. This is a favorable period for increasing your financial position. You may start looking for new ways to increase your income and, if other indications are favorable, you will find the means to do so.

You could find yourself being more realistic and stubborn than usual. You will be more tenacious and persevering in pursuing your dreams. It is important, however, to not be so obstinate and unwilling to compromise that you cause undue tension and resentment in others. You may find yourself having the desire to acquire beautiful or expensive things to a greater degree than you are used to.

This year will bring you in contact with practical people with whom you could possibly form a productive business arrangement. But you should be cautious about moving too fast in these ventures as you might find that the results do not meet your expectations.

If you have artistic inclinations, it will be a positive year for expanding your creative talents. This influence may attract you to begin to study such fields as art, interior decorating and design, or crafts such as pottery, which could ultimately result in material profit.

Physically, Taurus rules the throat, the neck, the vocal cords and the thyroid glands. You will be more inclined than usual to have sore throats, colds, or laryngitis. You may be more tempted than usual to over-indulge in rich foods which could cause you to gain unwanted weight. You will find yourself having the desire for comfort and ease rather than wanting to get involved in sports or physical exercise.

During this period you will find yourself wanting more stability in your life. Emotionally you could experience contradictory feelings. You will find yourself encountering Scorpio types of people who could have a strong influence on you. Be careful not to get involved in scenarios which create tension, jealousy or possessiveness in you or those you are dealing with. You should select your friends carefully and try to keep cool and calm when a difficult situation presents itself.

Solar Return MC Aquarius:

This will be a year of changes and improvement in your professional life. It could bring improved working conditions, the launching of new projects, possible job changes and the development of exciting new ideas for the future. Your objectives will be far-reaching, progressive, and unusual. Your activity will be related to groups of people - clubs, organizations, associations, committees, etc. - and you will search for cooperative activity that benefits you as well as others. You will receive help from influential or powerful friends, and you will rely on favors from the public in general, which will increase your prestige and popularity.

If your usual work is related to communication, computers, electronics, aviation, investigation, or music, this will be a very positive year. No matter what kind of work you are doing, you will want and seek to have a break in your daily routine and make, as much as possible, certain changes or alterations in your schedule.

During this period it is important to develop your own creativity, and to work as much as possible to the benefit of your community or to other groups of people. If your goal is to serve others in some way, you will also find yourself growing spiritually. Don't let fear of change or breaking out of the ordinary stop you from accomplishing your goals this year.

You won't tolerate a lot of authority from your boss or anyone else who tries to limit your freedom. Your independence will be strongly accentuated during this year.

This influence also increases the importance and the quality of life in your own home. It would be a good time to purchase real estate or make investments that increase the value of your property. During this period it is likely that you will invest money in things that will enhance your home. You will value the good life and want the best for yourself and your loved ones. However, don't expect to get total acceptance of your professional plans and projects from those you live with. It is possible that you may have to deal with someone important to you who has some opposition to what you are doing and doesn't agree with your new objectives.

Chapter 2: Astrological influence of your personality.

Sun in 9th house:

You will have a great desire to travel both mentally and physically this year. On one hand, you will want to increase your knowledge and will undertake intellectual activities or studies that were always of interest to you. On the other hand, you will have a desire to take journeys to foreign countries, enlarging the scope of your understanding. If you have been thinking about taking a trip, this is the time to set a date and make all the necessary arrangements. If you have ever dreamed of living in another country, this could be the time to do it.

You will probably become more philosophical than usual, wishing to explore abstract ideas and concepts that you have had difficulty comprehending before. Your interest in philosophy, the higher sciences, religion, or languages will be accentuated. You will be attracted to the mystical and occult. You may search more deeply for a belief system which meets your needs at this time. You may find yourself questioning the beliefs you have held up to now, wondering about their value for you today. You will favor any teaching which seems to ring true for you at the place where you are now.

Your mental attitude will be very positive, although sometimes you may tend to be too optimistic or daring. Be realistic with your plans! This influence will make you think big, and you could overlook concrete matters in the material world. Your boldness and spirit of adventure will also increase. It is advisable that you act wisely, especially in undertaking any business, new investment, or important commitment.

During this year you will find many answers about life. You would benefit by practicing some meditation exercises or by attending some sort of religious or spiritual service. It would also be a good idea to refresh your knowledge of other languages you have studied and to have your bags packed!

Sun conjunction Saturn:

The weight of responsibilities and obligation could limit your freedom. You will have to organize your life during this year and tackle situations that you have put aside before. This astrological conjunction forces you to see things realistically. It is important that you become aware of this because, the more realistic you are, the more profit you will gain this year. You will probably have to forego, or limit, the time you normally spend on amusement and entertainment. You will have a more serious and responsible attitude; this will be a year of maturation.

But you could also feel alone and isolated from others, experiencing great difficulty in expressing your emotions. You may feel inhibited and have doubts about where you're going, which could bring about distress or depression. It is important to see things with good humor and optimism, and to work in a persevering way in order to achieve your goals.

This influence could weaken your energy level, and it is advisable that during this time you concentrate your efforts on the most necessary and important tasks.

Sun conjunction Pluto:

This astrological aspect will bring profound changes in your life. Hidden, repressed feelings and desires will come to the surface, causing a change in your personality. It is important that you accept these emotions and don't attempt to repress them again, because, if you do, you will only feel more anxious and tense. You will be

more aggressive and impatient than at other times, and you will be working more from the subconscious level. This will be a year of transformation and profound changes for you and could bring you a wide range of new experiences.

Under this influence, you will also be inclined to worry about repairing and fixing the things that don't work in your life, both at home and at work. You also may be concerned with replacing or repairing those things that don't give good service anymore or things that have already served their useful purpose, for example, your car, home furnishings, or clothing.

You may experience tensions with people who attempt to control you or exercise authority in your life. You will be confronted with people of very strong character who think they know what is best for you but are not taking into consideration your needs or interests. Be careful not to react too aggressively in return.

The negative side of this influence is that it could bring unsavory elements or risky, violent situations into your life. It would be wise to avoid parts of your city where robberies and violence are common.

Sun trine Asc:

During this year you will feel very good. You will enjoy the company of others and, therefore, your relationships will be very favorable. You will show great enthusiasm in your work and everything you do. You will be full of vitality, joviality, and energy. You will be attracted to happy and amusing people and events. There also is a possibility of planning some trips during this year.

Physically, you will have the necessary strength to combat any problems you may have. If you have some physical ailment, you will move toward healing it this year. The improvement will be due to your positive attitude and to your search for gratification and personal satisfaction. You will be revitalized and relaxed and, in return, will induce a similar response from your environment.

The relationship with your father, or with people who represent authority figures in your life, will be very favorable. You could receive the support and collaboration of people in high positions.

Sun semisquare Venus:

You may encounter, and have to deal with, some unresolved romantic problems from the past. Stay calm and develop a positive attitude toward your partner, as well as your social life in general. The irritations and displeasures caused by others could be the reflection of your own inner uneasiness. This aspect generates a desire for comfort and pleasure, which could lead to disruptions in your routine, followed by a possible loss of income. Do your best to control these yearnings and search for a creative solution for your inner dissatisfaction.

Chapter 3: The emotional world.

Solar Return Moon in Pisces :

During this time you will be more emotionally intense, romantic, and dreamy. Your sensitivity will increase and you will be attracted to the world of feelings. Your imagination will also increase considerably, which could bring true moments of poetic or musical inspiration. If you have artistic inclinations, this influence will inspire you to create many new works. If you are not artistic, you will have new experiences of an emotional nature.

You will also be very sensitive to issues or problems centering around your home, especially those involving women. You will have a helpful attitude toward situations that come up and will even be willing to make some kind of sacrifice of yourself in order to restore harmony among your friends and loved ones.

It is important that you have contact with nature during this time, especially with places near water because it will help you to discharge your negative emotions and find inner peace.

Your desire to give and receive love will be increased. If you are involved with someone and don't receive the amount of affection you need, you may end up in another similar relationship where your emotional needs would be satisfied. If you don't have anyone special in your life at this time, you will search until you find someone. This astrological influence causes you to be more idealistic than usual. You probably won't see the people you are associated with too clearly or realistically and could, consequently, be easily deceived. Try to be objective and analyze the situations before you make any important decision. If you do not do this, you may find yourself in a world of emotional chaos.

Your sensitivity also will increase and you could easily feel hurt by someone for no apparent reason. To ease the pain and discomfort, you could search for a means of escape, such as alcohol, cigarettes, drugs, or tranquilizers. Or you may escape through sleeping a lot. It is especially important to maintain your objectivity and not let your emotions get out of hand.

Solar Return Moon in 11th house:

This year will be very good for social and group activities, especially those that are geared toward humanitarian causes. Your social life will pick up considerably and you can count on establishing new friendships, especially with women. In spite of the popularity that you will have, relationships formed at this time might be fleeting. Only some of them can be counted on to endure. Select your friends carefully and don't waste too much time with people who cannot be a positive influence on you. If you are involved in politics, you will have a very favorable year.

You also will develop new ideas and projects that will be carried out in the future. However, you should plan carefully and logically because you could be likely to change your mind, depending on your mood of the moment.

If you have children who are not your own (foster children or step children), you will be inclined to dedicate more time to them. Your desire for family harmony will increase and will affect many facets of your life.

Moon conjunction Neptune:

You will be hypersensitive and emotionally vulnerable to the energy of others. You will tend to absorb the energy like a sponge, which could sometimes be unpleasant as you take on the problems and unwanted tensions of negative or unhappy people. It is wise to avoid this kind of person if at all possible.

On the other hand, your imagination will increase greatly. You will spend more time in your dream world and forget about your problems. This influence could cause you to take on an escapist attitude, if you are not careful. There also is the possibility of acquiring bad habits such as cigarettes, alcohol, or drugs. You will be more idealistic, which could cause you to be deceived by others as you will not be facing reality head on. The pain resulting from this could cause you to want to escape in some way or another. Try to think more realistically about the people you associate with. Under this influence it is possible for you to be disillusioned or betrayed by your friends and associates. You could easily end up being the victim, although it might not really be as bad as it will seem to you.

Your ideas and your emotions will be difficult to express with words. During this time you will develop your creative and artistic talents more easily, especially in the fields of music and poetry.

Moon square Jupiter:

You will want to indulge in excesses and extravagant behavior this year. You could be more than usually generous and kind with others, but you will need to be noticed and appreciated for it. This could cause problems. Your judgment won't always be good, and you will have many moments of indecision and doubt concerning your actions.

You will be less conscientious in handling liabilities and debts and may be careless and forgetful in paying your bills or fulfilling contractual obligations. You may look to others close to you to protect you and help you out of any difficulty. You might also be attracted to games of chance or speculative business opportunities. It is important for you to be fiscally responsible at this time because, if you don't control your tendency to be too casual with money matters, you could experience financial failure or even scandal. Don't neglect any legal obligations at this time. This astrological aspect could bring loss through judgments or litigation, including an unfortunate divorce decree.

Your negligence could also apply to your physical body. Be careful about what you eat and get plenty of exercise. If you don't, you could gain unwanted weight. In general, you will tend to feel happy and carefree and will probably select those kinds of people as friends and companions.

Moon sextile Mercury:

Your emotions and your rational mind will be in balance. Your thinking will be influenced by your emotions, but at the same time, you will have the ability to make logical conclusions. Your mind will be very keen and alert. Therefore, any type of study or language learning would be very favorable. You will also be able to listen to the problems of others with sensitivity and understanding and be willing to offer them very valuable help.

If you have any interest in writing professionally, you will find this to be a good year for it. Or, if you are not a writer, you will at least be able to keep your personal and business correspondence up to date. Communication in general will be favored and you will be able to speak your mind easily.

This influence increases your romantic inclinations and would be a good time to tell your partner and other loved ones in your home how much you care for them.

This astrological aspect is extremely favorable for business relationships. You could sign very lucrative contracts or gain benefit from some type of investment or new business. It also could indicate frequent travel.

On the other hand, you could become interested in exploring your roots, searching for information about your family tree or stories about your family history. Communication with your mother or with women in general will be very positive.

Moon sextile Saturn:

This will be a year of great emotional stability. You will be able to see things from a more realistic and objective view, which will allow you to make the right decisions. You will have more patience, perseverance, and personal security.

You will probably become more emotionally reserved, not being so willing to share your feelings with others. You will prefer moments of intimacy in personal as well as romantic relationships. You could also be very attracted to the past, your origin, and your traditions.

In regard to your home life, there will be order and respect between all members. The climate will be one of seriousness and accomplishment. You will be inclined to consult older people or those who you think have wisdom and experience in the areas of your problems or doubts. You will feel more secure being surrounded by things or situations that you are used to rather than those that are new and strange. There is the possibility of investing in some real estate.

Moon semisquare Uranus:

You will be very impatient, rebellious, and generally nervous during this time. You will want to break the rhythm of your routine and will respond with anger to people or situations that limit your freedom. Moderate your reactions in order to avoid creating unnecessary chaos and difficulties in your environment.

You will be emotionally unstable and difficult to satisfy. You will be attracted to more unconventional relationships and will be easily bored by too much conventionality or stability. If you are in a committed relationship, there could be a threat of separation or changes in your routine.

On the home front, there could be problems, especially with the women in your life, who won't understand your new ideas and will tend to be critical of them. You could experience abrupt and unexpected changes in your home which, in the end, will not be to your advantage.

It is important to take care of your health, especially your digestive system. Due to the great tension of this year, you could be prone to certain stomach disorders. Maintain a light diet and, if possible, avoid red meat and fatty or fried foods.

There is a tendency toward accidents, falls, blows and burns during this year. It would be advisable to be careful to curb your impulsive reactions and be more cautious. You also could have a tendency toward running a high fever or letting your anger affect your health. You would benefit a lot by avoiding red meat and very strongly seasoned foods during this period.

In the work place, there could be tension and fighting with your co-workers. You could become more impatient with the ignorance of others and not be very willing to follow anybody's orders. There also is the possibility for accidents to occur in your place of work.

HOUSE 7: Associations. Marriage and partnerships.

Solar Return 7th cusp Conjunct natal 10th cusp:

Your spouse, partner, or business associates could become very influential in your profession during this year. If you are not involved in a committed relationship at this time, you probably will take refuge in your work and will turn to it to escape your personal problems.

Solar Return 7th cusp Conjunct natal Saturn:

The relationship with your spouse or committed partner will become very routine and traditional. You will feel a growing sense of debt and responsibility toward the other person that will make the relationship less pleasant and comfortable. You will feel the same way in your relationships with friends or associates. You could feel very much alone and will complain about not getting the affection you need from the people around you. Your relationships will be very stable and constant but they will not be as happy or natural as they used to be.

Venus in 7th house of Solar Return:

This will be a year of relating. If you have plans for marriage, things will go very smoothly for you. If you are already in a committed relationship, you will have a good year together. This astrological position promises success in all kinds of personal partnerships, including business partnerships. If you aren't in a committed relationship at this time, it could be the year when you meet that special someone. You will search for balance in your relating and will not want to go it alone this year. You might even be inclined to set aside your own interests and desires for the sake of achieving acceptance and harmony.

During this year you will make peace with any known enemies. If you have conflict with someone, you will want to resolve it in a peaceful and positive manner. Any litigation or legal activity you may be involved in will be resolved to your benefit.

Jupiter in 7th house of Solar Return:

You will enjoy your intimate and personal relationships a great deal, especially if you are with a partner. This year will be very favorable for companionship and for all types of relationships. You will have a positive response from others and will feel the protection and help from those around you. If you are not involved with

anyone, you could begin a very positive relationship during this year that will be very beneficial for you. You will have contacts with influential and powerful people, probably people from other countries. The important relationships could be personal as well as professional. If you are planning marriage during this year, you will have a very happy union that will permit you to expand your own horizons.

Legal matters will also be favorable as well as contacts with the public in general. However, try not to be so confident and outspoken that you invite deception or other problems in the future.

HOUSE 8: Life and death issues, inheritances, and mysteries.

Solar Return 8th house cusp in or within 3 degrees of natal 11th house:

You will make profound changes in your goals and future plans. You will be letting go of some of your old dreams and generating new ones. You will find that friends and associates will be a strong influence in guiding you through this transformation. You will be able to count on them for help. On the hand, this influence could also mark the loss of a friend.

Mercury in 8th house of Solar Return:

Your thinking will become more profound and you will gain more understanding about yourself. You will be inclined to get involved in important conversations with people who can help you explore the most significant aspects of your existence: questions about life and death, and other mysteries.

On the other hand, you could have difficulties in negotiations regarding financial investments or property that you own jointly with another person. There could be papers to sign concerning legacies, inheritances, judgments, or separation agreements which you may be involved in. This is an important year to address any legal issues in order to prevent future problems.

Solar Return Mercury Conjunct natal Pluto:

The exchange of ideas with other people could cause you to bring to consciousness some of the hidden, repressed emotions and memories from your past, thereby releasing the inner pressure they have caused and facilitating change and transformation in your life. On the other hand, you might also attempt to manipulate and control the ideas of others.

HOUSE 9: Religion and spirituality. Long-distance travel.

Solar Return 9th house cusp in or within 3 degrees of natal 12th house:

You may have trouble concentrating and exploring intellectual subjects this year. You could encounter people who have ideas and opinions which are contradictory to yours, and you will receive strong opposition to your religious or philosophical ideas. Don't expect too much recognition for your intellectual efforts nor much

satisfaction when traveling to foreign countries.

Solar Return 9th cusp Conjunction natal Pluto:

You could change some of your religious and philosophical ideas during this year due to new inner revelation and inspiration. This year could be a spiritual turning point for you. You will desire to search for new ideas and experiences, letting go of old attachments or limitations. You will become attracted to mystical or psychic experiences. If you travel to a foreign country during this time, the experiences you will have during your travels will deeply change your life.

Saturn in 9th house of Solar Return:

You will become more interested in higher studies such as religion, metaphysics, philosophy or one of the sciences. Your thinking will be more profound and you will be interested in exploring the more philosophical questions of life. You will become more mature in your way of reasoning and understanding the meaning of your existence. You will want to explore your spirituality in a deeper way and, if you are not truly satisfied with the religious or spiritual teachings you have been following, you may decide to go in another direction.

Long journeys will bring delays or frustration. Plans for trips that you may want to take should be made very carefully without leaving any questions unanswered. Otherwise, you could experience obstacles and difficulties. It would not be wise to go on any unplanned, spur of the moment trips because you will run into unexpected problems. Visits to foreign countries especially are likely to be unsuccessful and unpleasant as you could encounter even more serious problems.

Solar Return Saturn Conjunction natal Pluto:

Because of the burden of responsibilities of your daily life, you will have a strong inner desire to make changes and transform your life. You will respond in an aggressive or violent way to the limitations that are imposed on you by more structured, rigid people. Your desire for change could be frustrated by their indifference or lack of cooperation.

Pluto in 9th house of Solar Return:

You will have a great need to get in touch with your spirituality. You will become interested in the mysteries of life and will want to learn more in order to increase your knowledge and understanding of the meaning of life. This new knowledge will bring about changes in your activities and in your appreciation for living. You also could develop a strong desire to travel to foreign countries and to connect with people of different cultures. It is very possible that you will take a long trip during this year to explore exotic places.

The knowledge that you will acquire during this time will be more than the mere collecting of factual information. It will transform you in some way. However, you should take care not to become fanatic or obsessive about your new ideas because that could bring about problems with others.

Solar Return Pluto Conjunction natal Sun:

You can be a strong agent for change in those close to you. You will project yourself very powerfully and other people will listen to your ideas and be affected by them. On the other hand, you could also receive strong criticism or opposition to your personal position. However, contrary to what others may expect, this criticism

will only help you to strengthen and increase the trust and belief you have in yourself. There also is the possibility that you will have confrontations with authority figures or manipulative types who will pretend to expose you. However, you will feel very proud of the changes that you make this year and of the new attitudes that you will incorporate into your personality.

Solar Return Pluto Conjunct natal Mercury:

Your way of thinking can be affected by tension or radical changes in your environment.
